

AGREEMENT
OF COOPERATION BETWEEN
PRODUCTION TECHNOLOGY INSTITUTE
Technical University of Brno, Faculty of Mechanical Engineering
and
Engineering Technology Department
State Technical University of Bryansk

In keeping with the principles of friendly equality, mutual aid and benefit, the Production Technology Institute of Faculty of Mechanical Engineering of Brno Technical University, Czech Republic and the Engineering Technology Department of State Technical University of Bryansk, the Russian Federation, have agreed to establish a bilateral exchange programme and co-operative relationship and have reached an agreement on below mentioned intentions.

The two parties confirm their intentions to start exchange programmes in areas of mutual interest, including:

1. Teaching:

- 1.1. Exchange of handbooks, educational equipment and publications of educational type in the fields taught at both Universities.
- 1.2. Inviting academic teachers to give lectures or cycles of lectures.
- 1.3. Joint work on educational equipment.
- 1.4. Delegating small groups of individual students to participate in research work, connected with their final projects.

2. Research work:

- 2.1. Writing papers based on the results of individual and joint investigations and submitted for publication in Czech and Russian journals.
- 2.2. Participation of teachers and post-graduate students in seminars and conferences as well as presentation of papers on the results of individual and joint works.
- 2.3. Exchange of trainees (1-2 persons a year).
- 2.4. Education of post-graduate students and training research workers.
- 2.5. Sending of lecturers and research workers to opposite departments to prepare doctoral theses and qualifying the authors as Assistant Professors.

Financial terms for the co-operation are governed by separate rules. Travel expenses are covered by the delegating side and the costs connected with the stay are covered on the basis of both side special agreement.

The Agreement is signed by representation of the authorities of both sides:
